

Rollout Services

Initial Implementation of salesforce.com
Sales Force Automation
Create “A Single Version of the Truth”

Salesforce.com was rolled out to users in 3 continents in days. Initial accounts, contacts and opportunities were loaded. Existing contracts were scanned and loaded into salesforce. Reports were created and all users trained on a regular basis to introduce and reinforce adoption.

Service Deliverables

- Project management and status reporting
- Load existing accounts and contacts
- Load existing opportunities
- Load existing contracts
- Migrate legacy data (hard and soft copies)
- Train staff
- Train business partners
- Review progress
